

Student Funding Opportunities

Student Opportunities Grants

Grants of between **£50-£100** are available to assist Undergraduate and Postgraduate members with extracurricular, molecular bioscience-based projects that help develop skills and boost your CV.

Travel Grants

Available to Undergraduate and Postgraduate members, these grants range from **£200-£2,000** to support attendance at face-to-face and online scientific meetings, training courses, and lab visits.

Krebs Memorial Scholarship

This scholarship is offered to individuals whose promising research career has been interrupted for extraordinary nonacademic reasons and/or those ineligible for public funds.

Summer Vacation Studentships

This scheme offers funding to undergraduate students to carry out a 6-week summer placement. A computer-based scheme focused on skills development is also available.

Care and Assistance Grants

Available to Undergraduate and Postgraduate members, these grants provide funding to cover participation in a Society meeting or training course. Open to all additional support needs, including childcare, disability, and accessibility requirements.

Sponsored Seminar Series Grants

Grants of up to **£1,500** are available to Postgraduate members to assist with the costs of hosting a seminar series with guest speakers throughout the year.
